1. The "purpose" of Task A. - Tim's work seems redundant. We have already done a great deal of work for NSA. And we have on file over 1,000 RV sessions which could be reviewed to satisfy the stated "purpose" of Task A.

2. I always thought that "Tim's work" was a separate effort not under

4. (S/NOFORN) The last portion of the meeting concerned a second target. It was agreed that the target would be a blind target, delivered by [REDACTED] in a sealed envelope just prior to the session. After the session the envelope would be returned to [REDACTED] assured me this was not a test case but a valid sensitive, compartmented, intelligence target. Cuing data was developed for the target. (see project 8207).
